Camping and Running drive over half of gross profit

Year ● 2024 ● 2025

Every discount step costs approx. 2.5 points of margin

Units per line stays at aprox. 2.0 in every band

Kontiso's growth is running-led and concentrated - but half of all orders lines carry a discount, and the deepest band gives up ten points of margin for no extra volume. The cheapest growth left is the discount policy, not the product mix.
